EDUCATION

University of California, San Diego (UCSD) - Bachelor of Science in Computer Science, Minor in Design

Expected 06/21

Relevant Courses: *Introduction to CS Research, Advanced Data Structures and Programming, Design and Analysis of Algorithms/Theory, Programming Languages, Web App Performance and Monitoring, Data Science in Practice, Software Engineering, Digital Systems, Theory of Computability, Advance Programming with C and C++*

GPA 3.91/4.00

WORK EXPERIENCE

Software Engineer (Intern)

New York, New York

Analytical Flavor Systems Inc.

08/20 - Present

- Perform features development, code reviews, QA tests on both web and mobile app of Gastrograph AI platform using **React**, **Redux**, **React Native**, **GraphQL**, and **PostgreSQL** ([Web](#), [Android](#), [iOS](#)).

Web Developer (Part-time)

San Diego, California

UCSD Information Theory and Application (ITA) Center

12/19 - 02/20

- Rebuilt ITA website with an additional ITA Workshop 2020 page using **React** and **Django REST Framework** ([Web](#)).
- Created a new inherited database model to store 5000+ participants data from the new workshop registration.

Application Developer (Intern)

Jakarta, Indonesia

PT Jasa Teknologi Informasi IBM

08/19 - 09/19

- Turned design mockups of Applicant Tracking System on **Figma** into code using **Angular** with **TypeScript** and **SCSS**, enabling the electronic handling of recruitment for 1000+ applicants every year ([Web](#)).
- Collected training data of different milk flavors using **LabelImg** for computer vision research purposes.

Full Stack JavaScript Developer (Intern)

Tangerang, Indonesia

Bizzy Indonesia

06/19 - 08/19

- Remodeled Daily Commercial Report Portal using **React** to improve web functionality and speed ([Web](#)).
- Visualized and renewed query for sales and stock reports increasing data quality of 30+ client companies.
- Pitched and developed a loyalty program feature for TokoSmart mobile app in **React Native** with **TypeScript** ([Android](#)).

Math Tutor and Computer Lab Assistant (Part-time)

Pleasant Hill, California

Diablo Valley College (DVC) Computer Center and Math Center

06/18 - 05/19

- Performed computer troubleshooting including course-specific softwares and printer maintenance.
- Provided 15-minute one-on-one tutoring sessions for all college-level math courses.

PROJECTS

Nonprofit Organization Website: Project Smile ([Web](#))

07/20

- Transformed web design mockups on **Figma** into code using **Next.js** for a nonprofit organization.

Research Project: Automated Gene Target Report Card for Inflammatory Bowel Disease (IBD) ([Web](#))

01/20 - 06/20

- Developed an end-to-end web application in **React**, **Node.js** with **Express**, and **MongoDB** that summarizes therapeutic potentials of genes to help pharmaceutical scientists find drugs in time- and cost-effective manner.
- Designed UI/UX from scratch using **Figma** based on the user stories collected.

Web Application: Sports Teammates For U ([Web](#))

03/20 - 06/20

- Collaborated with a team of 10 to develop an end-to-end platform for sports networking, venue rentals, and referee hiring using **React**, **Django REST Framework**, **Firebase Authentication** and **Hosting**.
- Originated the UI/UX design and set up the whole front-end code structure of landing page, user registration and log in page, profile page, dashboard and its contents with back-end APIs integration.

Amazon Alexa Skill: World Savvy ([Link](#))

01/18

- Rewarded with an Amazon Echo Dot in Amazon Alexa Skills Challenge for building an educational quiz game for kids using **Alexa SDKs for Node.js** and **Amazon Web Services (AWS) Lambda**.

ACTIVITIES

President of Women in Computer Science (WiCS) at Diablo Valley College ([Web](#))

08/17 - 05/19

- Managed 58 members of WiCS that have won 4 awards in hackathons, expanding club membership by 75%.
- Maintained the club's website, mentorship program, weekly projects, and activities.
Project examples: Image Manipulation in **C++**; Hangman in **Python**; Web Calculator in **HTML**, **CSS**, and **JavaScript**.

Lead Organizer of DVCHacks: Diablo Valley College's Premier Hackathon ([Web](#))

04/19

- Led an organizing team of 15 people to pioneer DVC's first public hackathon, a 24-hour coding competition filled with 4 technical workshops sponsored by Google and Amazon engineers.
- Acclaimed as DVC's Best Event of the Year 2018-2019 with a total of 88 participants.
