EDUCATION

University of California, San Diego - B.S. in Computer Science | GPA 3.91/4.00

09/19 - 06/21

Relevant coursework: Data Structures and Algorithms, Software Engineering, Operating Systems, Data Science, Recommender System and Web Mining, Web App Performance, Computer Security, Design for Development

WORK EXPERIENCE

Software Engineer II - Boku, San Francisco | [Web](#)

08/21 - Present

- Integrate and maintain one-time and tokenized payment APIs of charge, refund, subscription, and notification between Big Tech merchants and 200+ local payment methods, leading to 201% increase in digital purchases.
- Collaborate with **Agile** cross-functional teams as a subject matter expert for a merchant dashboard, prioritizing customer experience while maintaining code modularity and reusability principles with 93% test coverage.
- Design UI/UX in **Figma** and develop full-stack dashboard pages, implementing secure user authentication with 2FA, OAuth SSO, and CAPTCHA, utilizing **Angular, Java (Spring Framework), MySQL, and Redshift**.
- Implement server-side search, pagination, sort, and progressive query, efficiently rendering ~10k rows in ~500ms.
- Facilitate a project handover by creating comprehensive technical documentation, leading onboarding sessions, mentoring a new team of 5, and overseeing their end-to-end development and testing practices.

Software Engineer Intern - Analytical Flavor Systems, New York | [Web](#), [Android](#), [iOS](#)

08/20 - 10/20

- Incorporated a project tracking system for instant task notifications, reducing project duration by 20 work hours.
- Streamlined quality assurance (QA) report generation and revision interface, automating 5 manual workflows and centralizing documents for more efficient software development life cycle (SDLC) management.
- Redesigned flavor review interface to specify texture per food component and increase flavor profile data granularity, allowing for greater prediction accuracy.
- Improved Gastrograph AI web and mobile apps using **React, Redux, React Native, GraphQL, and PostgreSQL**.

Web Developer Part-Time - UCSD Information Theory and Application Center | [Web](#)

12/19 - 02/20

- Remodeled homepage and registration system for ITA Workshop 2020 using **React** and **Django REST Framework**.
- Created a new database model to store 5000+ additional registrations, enhancing data storage and lookup time.

Application Developer Intern - IBM Indonesia | [Web](#)

08/19 - 09/19

- Implemented an Applicant Tracking System design mockup using **Angular** with **Node.js** and **Express** back-end APIs integration, enabling electronic handling of recruitment for 1000+ applicants annually.

Full Stack JavaScript Developer Intern - Bizzy Indonesia | [Web](#), [Android](#)

06/19 - 08/19

- Refined the Daily Commercial Report Portal using **React** to boost web functionality and performance by 78%.
- Visualized data using **D3.js** and renewed **PostgreSQL** queries for improved sales and stock reports data quality.
- Pitched and built a loyalty program using gamification for the TokoSmart mobile app in **React Native (TypeScript)**.

PROJECTS

Automated Gene Target Report Card for Inflammatory Bowel Disease | [Web](#)

01/20 - 06/20

- Designed and developed an end-to-end web application using **Figma, React, Node.js, Express, and MongoDB**, summarizing gene therapeutic potentials to streamline IBD drug development research process efficiently.

Sports Networking Web Application | [Web](#)

03/20 - 06/20

- Developed UI/UX design and front-end code structure with back-end API integration for a sports networking platform using **React, Django REST Framework, Firebase Authentication, and Firebase Hosting**.

LEADERSHIP EXPERIENCE

President of Women in Computer Science Club at Diablo Valley College | [Web](#)

08/17 - 05/19

- Led 58 members of WiCS to win 4 awards at hackathons, resulting in an 80% expansion of club membership.
- Organized **DVCHacks**, a 24-hour pioneer hackathon with 4 technical workshops sponsored by Google and Amazon engineers, earning DVC's Best Event of the Year 2018-2019 with 88 participants.
